

Remarks

Applicant repeats and incorporates by reference our prior response dated April 7, 2008.

With respect to the statement in the advisory action regarding section 112, second paragraph issues in the independent claims, we submit that the claims now refer to an output signal to provide antecedent basis for **the** output signal. Furthermore, we submit the fact that the output signal will be different based on the control bit does not render the claim indefinite.

No fee is believed due for this submission. However, Applicant authorizes the Commissioner to debit any required fee from Deposit Account No. 501593, in the name of Borden Ladner Gervais LLP. The Commissioner is further authorized to debit any additional amount required, and to credit any overpayment to the above-noted deposit account.

Respectfully submitted,

JARABEK, Andrew, Louis et al
